

HAPPY HOUSE®

Creating Smiles Worldwide

Happy House is small in scale but very big in heart. We are all about creating fun products that explore innovation in everyday items, to bring life to products through clever design using our distinct beautiful bright artwork. The principal still applies even after 17 years of starting the business. We love to create product that brings joy and happiness to the recipient, for a girl of any nationality of any age but more commonly between 6 to 25 years of age! The end goal is to create a smile.

Make it Fun

Happy House has sold in over 40 countries in many forms, decorating bedrooms with bed linen and accessories, brightly coloring parties with balloons and party items, adorning young girls with casual bags, apparel and jewellery, brightening school days with stationery, back packs and lunch boxes, making lives fun with toys and gift ware, keeping girls on time with watches and clocks and generally filling up many hearts with colour and happiness!

Licensing Extensions Available

Apparel, Accessories, Back-to-School, Home Décor, Party Supplies, Sleepwear, Loungewear, Electronics, & More!
